# Packages and package rates

1

## **What's a package?**

A reservation that contains at least two major travel components (flight, accommodation, car rental), one of those being a hotel booked on Expedia TAAP

2

## **What are package rates?**

Discounted hotel rates that can be offered to travelers if you book them a hotel through TAAP with another major travel component, whether booked on TAAP or not

3

## **Why should I care?**

Discount levels for these rates are so good that hotels don't want us disclosing them – so always quote the price for all components together. Travelers will save an average of 20% on prepaid hotel rates at 350,000+ properties worldwide

4

## **What about commission?**

Commission is calculated including taxes and fees, on the total trip cost, and based on the hotel and your agency's tier. You will see higher commission for some rates when compared to normal hotel rates
